SUMMARY

Senior Software Developer with **9 years at Adria Mobil** (Trigano Group), the last 3+ in development, building enterprise web and mobile applications with **Angular, React, React Native and TypeScript**. Frontend-focused and responsible for the **UI/UX design** of the company's portals, from first concept to deployment. Background in **Microsoft 365 and enterprise infrastructure** gives an end-to-end view of how applications are delivered and run.

EXPERIENCE

Senior Software Developer

Adria Mobil d.o.o. · Novo mesto — Sep 2026 – Present

- Own frontend development and **UI/UX design** of a multi-company Angular **After-Sales Portal**, planned for **at least 5 Trigano Group business units** and their dealers and distributors, replacing outdated legacy systems.
- Decide the look and feel of the team's frontends, designing polished, easy-to-use interfaces.
- Build React Native Android solutions and integrate frontend applications with .NET-based REST APIs.
- Work with Microsoft Entra ID authentication, Git, Azure DevOps and IIS-based delivery workflows.
- Use **Claude Code and Codex** for coding, debugging, refactoring and solution design.

Software Developer / System Administrator

Adria Mobil d.o.o. · Novo mesto — May 2023 – Aug 2026

- Built a React production dashboard shown on screens above **6 production lines**, giving all line workers the plan, production status and major quality issues.
- Built **InventuraOS**, a React Native Android inventory app with barcode scanning; used by ~20 staff in the yearly stocktake, it made the process **at least twice as fast**.
- Designed and developed an Angular **supplier portal** that replaced a legacy desktop application, owning the frontend design from the start.
- Implemented REST API integrations and website updates; supported application deployments.
- Administered Microsoft 365, SharePoint, Active Directory and Windows systems; automated tasks using PowerShell.

IT Support Specialist / System Administrator

Adria Mobil d.o.o. · Novo mesto — 2017 – 2023

- Supported enterprise users and maintained Windows endpoints, software deployments and IT assets.
- Wrote a **PowerShell** script that automatically configures new Windows PCs before they are handed to users.
- Troubleshot hardware, operating systems, networking and application issues; supported user onboarding and training.

SKILLS

Angular	React	TypeScript	React Native	.NET APIs	Tailwind CSS	REST APIs
